Career History

Artist – Ctrl+CAT

*February 2013 – May 2013
Four Months 2013*

Lone artist for the 2D Action Puzzle Platformer *Purgamentum* made at SMU: The Guildhall. Ctrl+CAT consisted of five members, with one member joining later in development: one artist, three level designers, and a software developer. Responsibilities included communicating design aspects and guided artistic direction based on the overall vision communicated by the desire of the team.

Lead Artist – Team GigaPunch

*June 2013 – September 2013
[Four Months 2013]*

Art Lead for the UDK Multiplayer Online Shooter *Skyscrappers* at SMU: The Guildhall. Team GigaPunch had eight members before the number declined to seven partway through development: two artists, two level designers, a producer, and two software developers. Responsibilities on the team included overseeing art direction, art team scope and hours planning, and creating modular environment assets, characters, a weapon, maintaining an Art Design Document.

UI/HUD Artist – Tempest Games

*October 2013 – May 2014
[Eight Months]*

Acted as Artist for the Action Survival RTS *Project Island* at SMU: The Guildhall. Tempest Games
